2019 CGPA: 8.9/10

EXPERIENCE

Senior Software Engineer — Razorpay

Jan 2022 – Present

- Architected a real-time fraud detection service processing 50,000 TPS with <10ms p99 latency using event-driven design on Kafka + Redis.
- Reduced payment failure rate by 18% by redesigning retry logic and fallback routing across 12 payment gateway integrations.
- Led migration of monolithic settlement system to microservices, cutting deployment time from 45 mins to 4 mins.
- Mentored 4 junior engineers; 2 promoted to mid-level within the year.

Software Engineer — Flipkart

Jul 2019 – Dec 2021

- Built a personalized recommendation engine (collaborative filtering + ALS) boosting CTR by 23% across 80M active users.
 - Optimized critical catalog search queries reducing P95 response time from 800ms to 120ms via query rewriting and index tuning.
 - Developed an internal CI/CD dashboard used by 200+ engineers, reducing release cycle time by 35%.

PROJECTS

DistCache – Distributed Caching Library (Open Source)

Tech: Go, Consistent Hashing, gRPC

Built a lightweight distributed cache supporting LRU/LFU eviction. 1,200+ GitHub stars. Used in 3 production services at current company.

SmartBudget – Personal Finance App

Tech: React, FastAPI, PostgreSQL, Plaid API

Full-stack app tracking expenses with ML-based category prediction (92% accuracy). 4,000+ active users on Product Hunt launch.

CERTIFICATIONS

- AWS Certified Solutions Architect – Professional (2023)
 - Certified Kubernetes Administrator (CKA)
-

ACHIEVEMENTS

- Best Engineer Award – Razorpay Q3 2023
- Open Source Contributor – Apache Kafka (3 PRs merged)
- Speaker – PyCon India 2022
