SUMMARY

Final year CS student with strong foundation in DSA, OOP, and web technologies. Active competitive programmer with 500+ problems solved on LeetCode. Completed impactful internship and built 3 full-stack projects. Ready to contribute from day one.

SKILLS

Languages: C++, Python, JavaScript, SQL

Web: React.js, Node.js, Express.js, HTML5, CSS3

CS Fundamentals: Data Structures & Algorithms, OOP, OS, DBMS, Computer Networks

Tools: Git, VS Code, Postman, MySQL

EDUCATION

B.Tech in Computer Science — SVNIT Surat

2024 (Expected) CGPA: 8.6/10

EXPERIENCE

SDE Intern — Juspay Technologies

May 2023 – Jul 2023

- Built an internal admin dashboard to monitor payment gateway health metrics, reducing manual checking time by 80%.
 - Implemented 3 new REST API endpoints in Haskell + Node.js stack handling 5K+ daily requests.
 - Fixed 12 critical bugs in the payments reconciliation module reducing discrepancies by 30%.
-

PROJECTS

CollegeConnect – Campus Social Network

Tech: React, Node.js, MongoDB, JWT Auth

Social platform for college students with news feed, event listings, and club management. 400+ active users across 2 colleges. Built authentication from scratch with JWT + refresh tokens.

CodeTrack – LeetCode Progress Tracker

Tech: React, LeetCode API, Chart.js

Dashboard to visualise LeetCode progress over time with heatmap, streak tracking, and topic breakdown. 150+ active users.

CERTIFICATIONS

- Full Stack Web Development – The Odin Project (Completed)
-

ACHIEVEMENTS

- LeetCode: 500+ problems, Rating 1780 (Top 8%)
- Smart India Hackathon 2023 – Finalist (Top 50 teams nationally)
- ACM ICPC Asia Regional 2023 – Participated
